FAS3000 Series Hardware Maintenance

COURSE DESCRIPTION

The FAS3000 Series Hardware Maintenance course is a self-paced course designed for support personnel who are responsible for maintaining and troubleshooting the FAS3000 series systems. The course is in the form of a video workbook. It provides information regarding the major components of the FAS3000 series, field replaceable unit (FRU) procedures, cabling, diagnostics, and basic hardware troubleshooting. If you have access to lab equipment, there are self-paced exercises to perform. When you enroll in the course, you will have immediate access to the Web-based version. To complete the course, you must pass the course exam with a score of 70% or greater.

DELIVERY TYPE

- Web-based training (WBT)

DURATION

- 2 hours

AUDIENCE

Support personnel who are responsible for maintaining and troubleshooting the FAS3000 Series systems

TRAINING UNITS

- 2
