NETAPP UNIVERSITY

SnapManager 4.0 and Exchange 2007 New Features and Installation

COURSE DESCRIPTION

This Web-based course covers the new features that were introduced with SnapManager® 4.0, and Microsoft® Exchange Server 2007. It also highlights the installation steps of SnapDrive® and SnapManager software. There are demonstrations of each install respectively.

DELIVERY TYPE

- Web-based training (WBT)

DURATION

- 1 hour

AUDIENCE

NetApp and Partner system engineers, professional services and customers

TRAINING UNITS

- 1

PREREQUISITES

- Microsoft Exchange on NetApp Storage systems (ILT)

OBJECTIVES

By the end of this course you should be able to:

- Identify the differences between SnapManager for Exchange 3.2 and 4.0.
- Illustrate the process of installing both SnapDrive and SnapManager for Exchange 4.0 on a Microsoft Exchange Server 2007 installation.
- Install SnapDrive and SnapManager for Exchange 4.0 in a simulated lab environment.
- Identify the major differences between Microsoft Exchange Server 2003 and 2007.
- Compare and contrast how the changes in the SnapManager for Exchange and Exchange products will affect use and design.
